

Development Director

Mission Statement: We work throughout Washington State to support land-use policies that encourage healthy, equitable and opportunity-rich communities, and protect our valuable farmlands, forests and water resources.

About Futurewise

Futurewise is the only statewide environmental non-profit in Washington dedicated to ensuring that state and local governments manage population growth responsibly. Founded in 1990, Futurewise (formerly 1000 Friends of Washington) has established an impressive track record in growth management issues as the state's primary advocate for smart growth policies.

The goal of Futurewise is to protect the future of Washington for all of its citizens by ensuring that growth happens in a way that is beneficial to everyone. Futurewise is working on several ambitious efforts to ensure that Washington and its communities are making sound decisions to address growth and development in a proactive, equitable manner. The current work program includes:

- **Increasing Community and Resource Protections.** Futurewise is working to ensure that communities across the state permanently protect working farms and forests, and work to ensure healthy rivers, lakes wetlands and shorelines.
- **Creating Livable, Equitable Communities.** Futurewise encourages communities in Washington to embrace the "best practices" of livable, equitable communities, and to advance land-use policies that create affordable housing, prevent displacement, and take advantage of transit-oriented development opportunities.
- **Strengthening the State's Role in promoting sustainable growth.** Futurewise works at the state-level to advance and shape legislation that supports affordable housing options, promotes equitable and sustainable transportation options, and protects and strengthens growth management and environmental protection laws.
